

Position: Field Service Technician

Supervisor: Jacquie Carramusa

Location: Red Deer & Surrounding Area

Work for a recognized brand and industry leader that offers best in class product! Culligan International Company is one of the world's most recognized leaders in water quality solutions.

Culligan of Red Deer, a Culligan franchise, is seeking out an individual with technical experience to provide service and repair for Culligan products in the field.

The field service technician provides repairs, upgrades, maintenance, and installations for Culligan equipment and products. The technician's goal is to provide the maximum amount of service to clients in order to exceed customer expectations.

Key Qualifications & Requirements:

As a Service Technician you will install Culligan equipment, perform all diagnostics and analysis to trouble-shoot and repair equipment in a timely and efficient manner. At times the technician may assist other employees with delivery and installation of products/equipment.

- Require a High school diploma or GED.
- Minimum two years of related technical experience. Plumbers' license preferred.
- Valid CDL.
- Good communication skills, both written and verbal. Employee will be responsible for completing paperwork form site assignments.
- Validated ability to perform basic shop repairs, water testing, and completion of Level 1 wet rack workshops (installation, start-up, troubleshooting).
- Validated knowledge of water softening and drinking water standards.
- Must wear safety equipment as required, most tasks require some physical exertion.
